Corporate Presentation

Engineering excellence worldwide since the 1950s

EXPERTS OF GRAIN MILLING · 4TH GENERATION

CONTENTS

Inside this presentation

A four-generation milling company delivering turnkey plants, machinery and lifetime support to customers worldwide.

01 Corporate Profile

02 AGRIMAC at a Glance

03 Our Journey

04 Executive Management

05 Fields of Activity

06 Engineering & R&D

07 Production & Services

08 After-Sales Services

09 Product Portfolio

10 Global References

01 · WHO WE ARE

Four generations of milling expertise

With four generations of milling expertise, AGRIMAC combines deep-rooted industry knowledge with modern engineering and innovation.

We design, manufacture and deliver high-performance milling solutions, from project planning to commissioning, with a strong focus on efficiency, durability and long-term success.

1950s
Roots in milling

4th
Generation

90%
Export-based production

About Us, Vision & Mission

About Us

Four generations of pride in pioneering projects across the milling industry.

Grounded in a quality-driven philosophy and innovative strides, our long-standing journey has earned us a strong reputation in the global market. Today, combining fourth-generation dynamism with our team's deep expertise, we carry this legacy forward and continue to shape the industry.

Our Vision

To shape the future of the milling industry through pioneering technology.

By combining advanced engineering with durability and high efficiency, we stand as a trusted global partner. Our signature on a facility means uninterrupted, safe, peak-performance operation. Backed by robust R&D and deep field experience, we keep raising the technological bar to give our customers a measurable competitive edge worldwide.

Our Mission

To build high-performance facilities that drive sustainable success for our customers worldwide.

Guided by real-world operational data and rigorous testing in demanding environments, we commit to maximum efficiency. By accurately analysing global needs, we deliver reliable turnkey factories, providing end-to-end support from project inception and beyond.

AGRIMAC in numbers

70+
Years of industry experience

90%
Export-based production

180+
Turnkey projects commissioned

300,000+
Tons/day processing capacity delivered (flour & semolina)

6,000,000+
Tons of storage capacity delivered

450+
Experienced engineering and system production integrators

A milling legacy from the 1950s...

1950s

The beginning of our milling experience

1958–1970

A culture of production and development

1980

The first step of our global journey

1990

Expansion into the global market

...into the future

1995

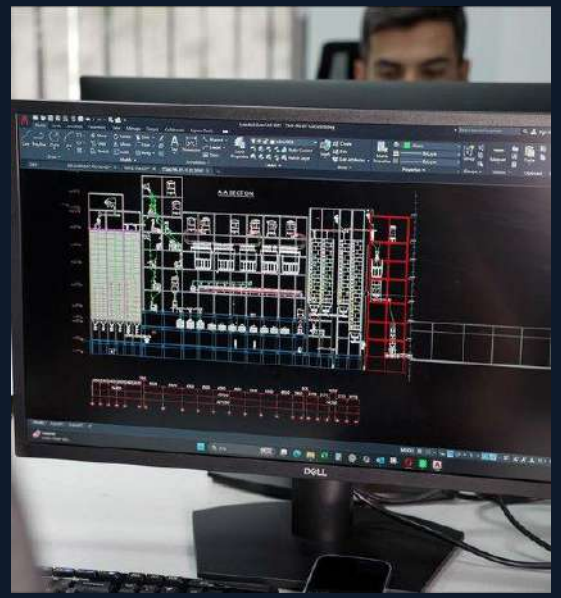

Our first turnkey project

2010

Creation of the AGRIMAC brand

2020

Next-generation turnkey projects

2025

Next-generation production technology

Executive Management

Uğur Barlık

Honorary President

Okçul Barlık

Chairman of the Board of Directors

Uğur Emir Barlık

Vice Chairman of the Board of Directors

Mehmet Aras

COO & Board Representative

Zehra Aras

CCO & Board Representative

End-to-end solutions for the grain industry

Turnkey Projects

Flour, semolina, maize and feed mills

Grain Processing, Silo & Handling Equipment

Storage, conveying and handling

Pasta, Biscuit & Cereal-Based Food Plants

Mills feeding food production

Industrial Steel Construction

Steel buildings and structures

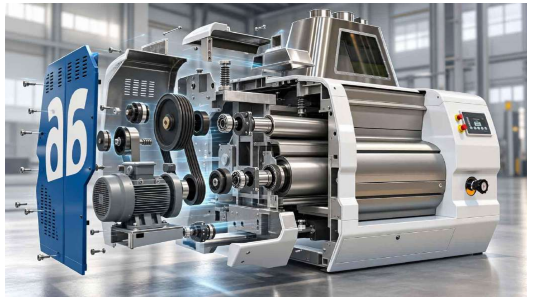

Port Projects

Discharging, conveying and filling

Transport, Storage & Processing Facilities

For various agricultural raw materials

Spare Parts & Service

Genuine parts and lifetime support

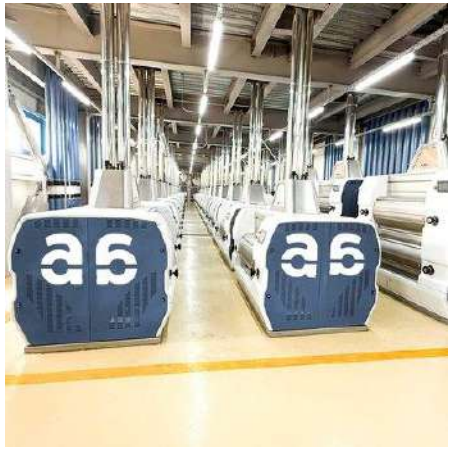

Industrial Food Analysis & Laboratory

Laboratory solutions for quality control

Flour Mills

Turnkey flour and semolina mills, from design and manufacturing to commissioning.

Feed Mills

Turn-key feed production plants with integrated storage and handling.

Grain & Silo Handling Equipment

Steel grain silos, conveying and handling systems for every capacity.

Industrial Steel Structures

Steel construction for mill, silo and process buildings.

Pasta, Biscuit & Cereal-Based Food Production Mills

Milling plants feeding pasta, biscuit and cereal-based food production.

Port Handling, Discharging & Filling Projects

Ship unloading, conveying and filling systems for port terminals.

Laboratory Equipment

Industrial food analysis and laboratory solutions for quality control.

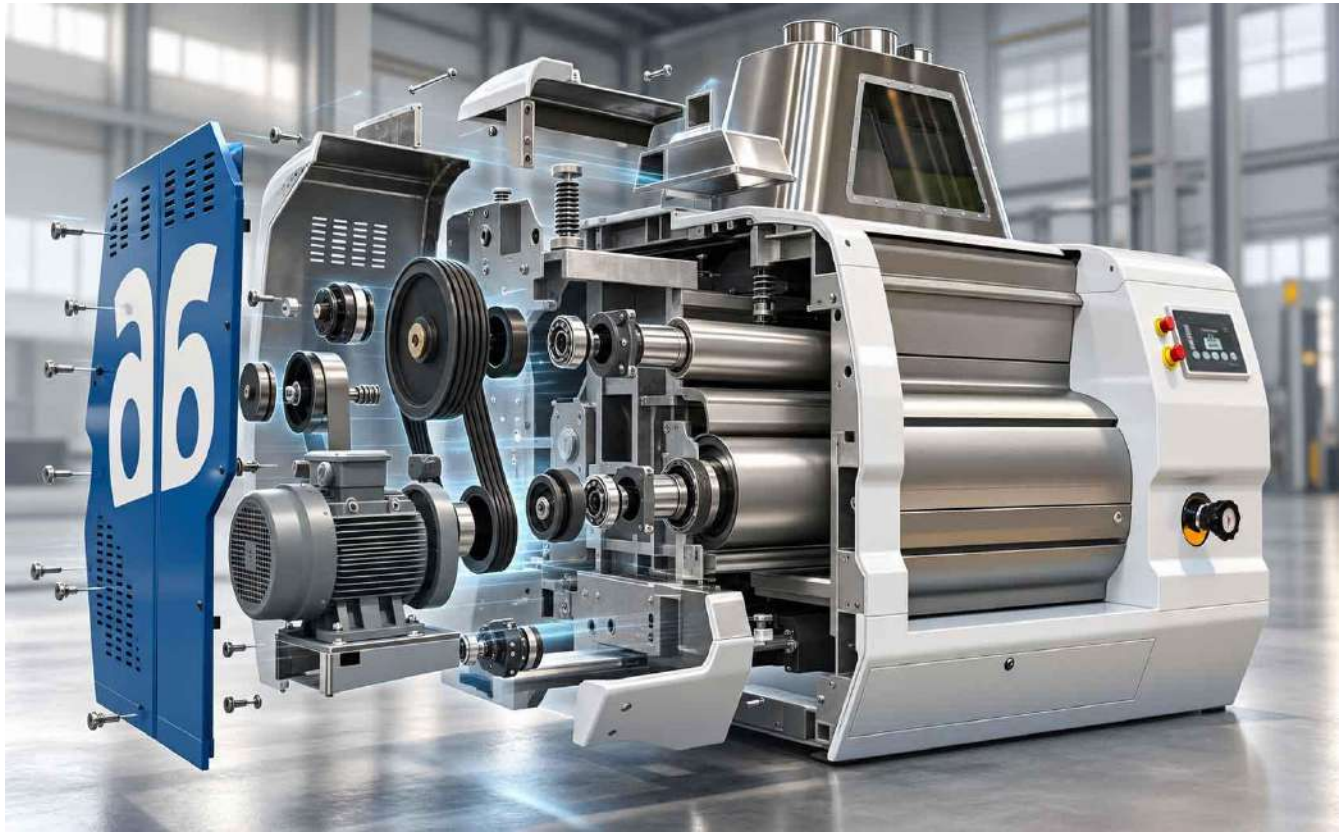

Spare Parts & Service

Genuine spare parts, available through our Mill Market platform.

mill MARKET

Engineering and R&D

Pioneering Intelligence

Machines and complete plants engineered and designed in-house.

Next-Gen Innovation

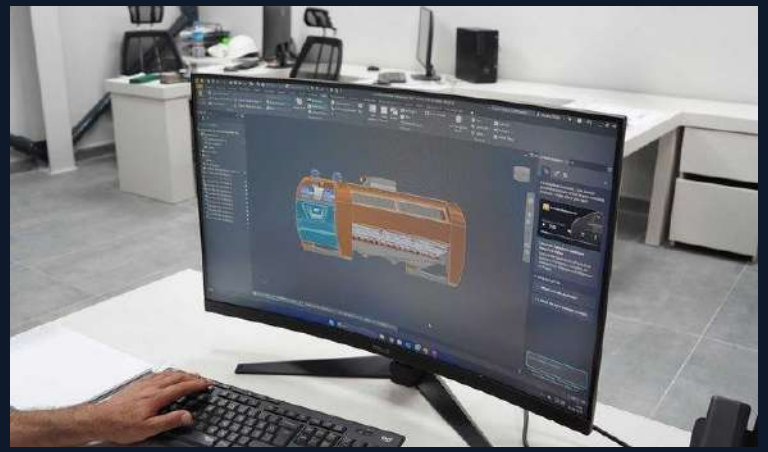

Every new machine generation developed for higher efficiency.

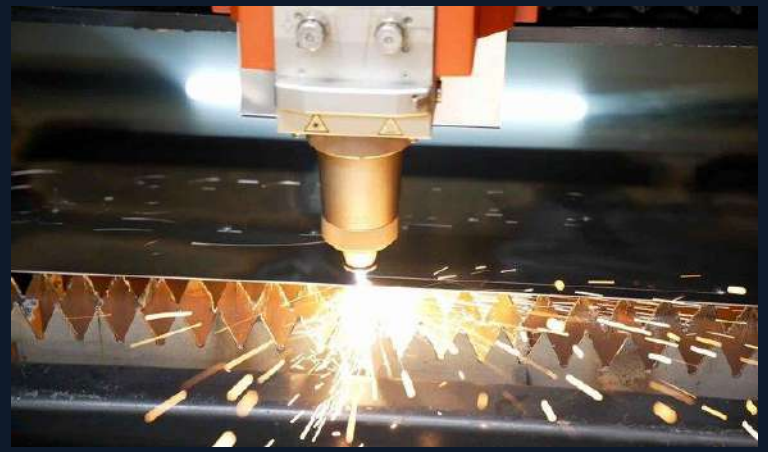

Engineering the Future

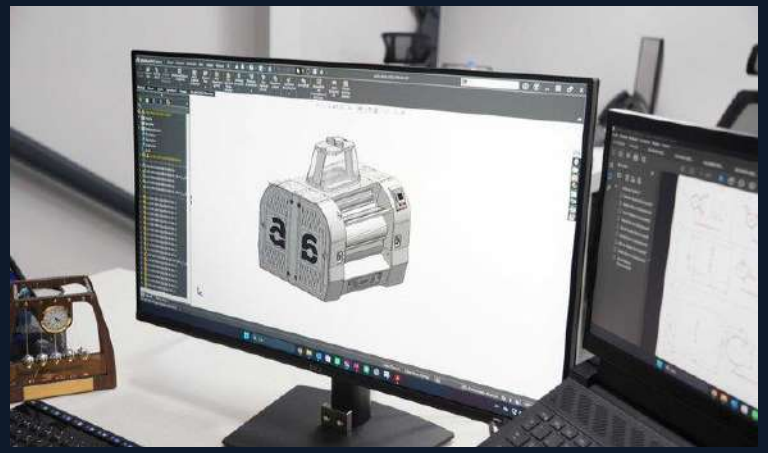

Precision manufacturing driven by engineering excellence.

Redefining energy-efficient innovation

Visionary engineering meets unmatched design mastery.

From 3D design and simulation to laser cutting and fabrication, every stage of development happens under one roof, giving us full control of quality, performance and energy efficiency.

The experience of our past, the assurance of our future.

EXPERTS OF GRAIN MILLING

Automation, SCADA & PLC Systems

Electrical System Design

Comprehensive low-voltage electrical project drawings and advanced compensation designs tailored for milling facilities.

Specialized Panel Manufacturing

In-house design and production of Motor Control Center (MCC) panels built for durability and precision.

Power Quality Solutions

Custom design and fabrication of high-performance power compensation panels to optimize energy efficiency.

Industrial Automation

Advanced PLC programming and customized SCADA software for seamless operational control.

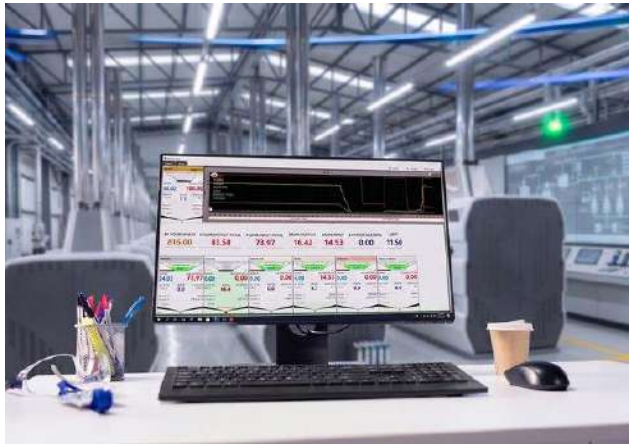

IT & Technical Support

Professional computer troubleshooting, hardware diagnostics and critical software installations.

Global & Remote Support

After-sales service with secure long-distance connectivity for rapid troubleshooting and maintenance.

We combine cutting-edge manufacturing excellence with elite craftsmanship to set a new standard in the industry.

EXPERTS OF GRAIN MILLING

07 · PRODUCTION & SERVICES

Production Facilities

Our machines are designed, fabricated, assembled and tested in our own production plant in Çorum, Türkiye.

In-house

Design, fabrication and assembly

Robotic

Welding and laser-cutting lines

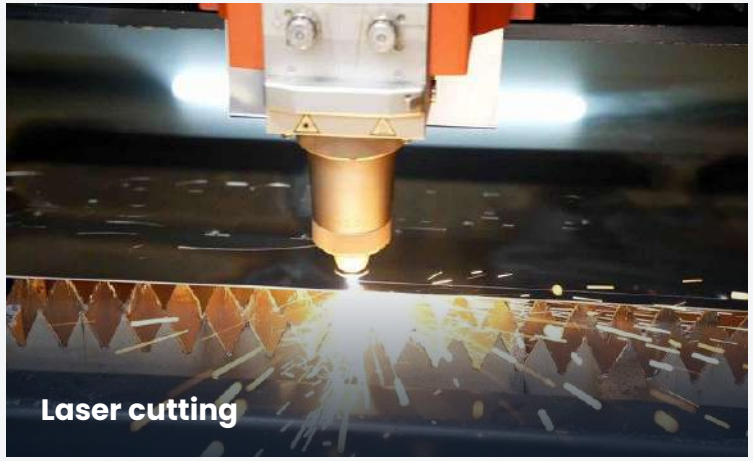

Export-ready

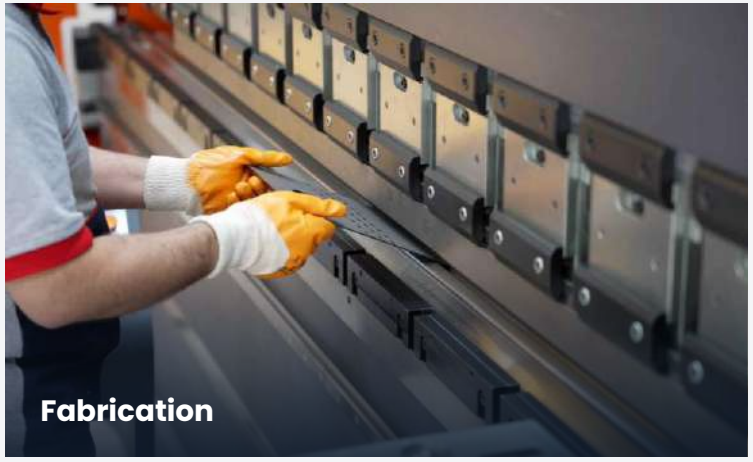

Packed and shipped worldwide

Manufacturing in action

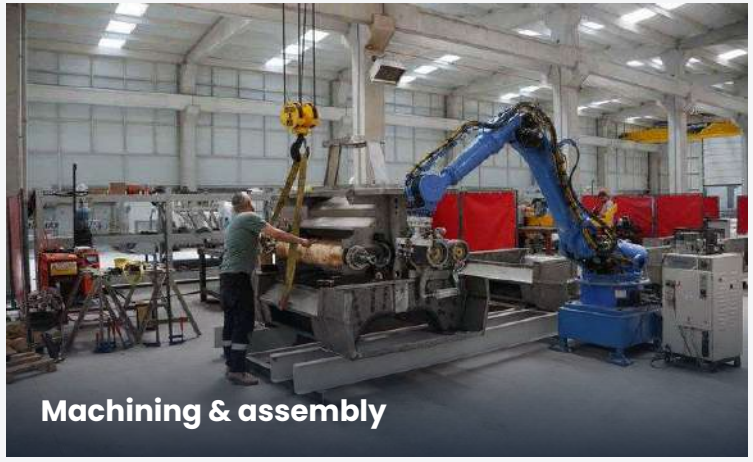

Roller mill production line

Advanced Manufacturing Technology

Laser cutting

Fabrication

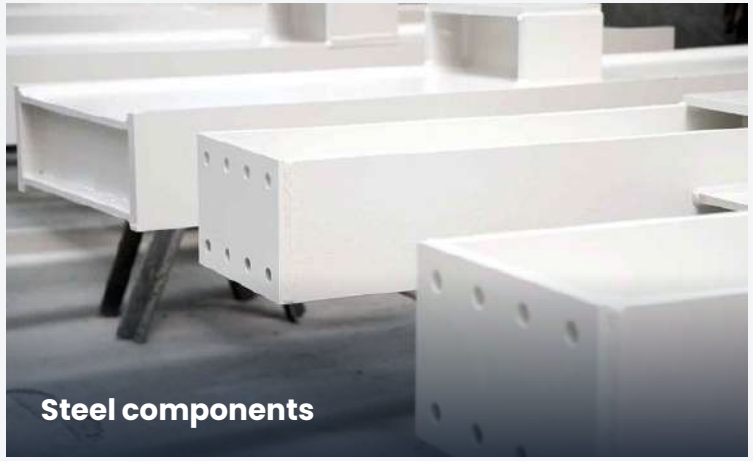

Welding

Machining & assembly

Assembly, finishing & shipment

Final assembly

Semolina purifier assembly

Steel components

Handling equipments

Bucket elevators

Packed for shipment

08 · AFTER-SALES SERVICES

After-Sales Services

A support network built for lasting partnership, protecting the customer journey with smarter, faster solutions.

01

Remote Support

Secure remote connection to plant automation for rapid diagnostics and troubleshooting.

02

Spare Parts

Genuine spare parts supplied through our Mill Market platform.

03

Service & Maintenance

Maintenance and troubleshooting support to keep your plant at peak performance.

04

Lasting Partnership

End-to-end support from project inception throughout the entire lifecycle of the plant.

Beyond the sale: AGRIMAC enhances its support network to build lasting loyalty, protect the customer journey and deliver smarter, faster solutions.

EXPERTS OF GRAIN MILLING

09 · PRODUCT PORTFOLIO

Machinery for every stage of the mill

09 · PRODUCT PORTFOLIO

Silo & Cleaning

- Pro Clean Separator
- Vibro Pro Clean Separator
- Turboliser
- Horizontal Scourer
- Scourer
- Dry Stoner
- Automatic Dampening System
- Pipe Magnet
- Lattice Magnet
- Air Channel
- Aspiration Channel
- Flow Meter
- Automatic Blending Machine
- Manual Blending Machine
- Color Sorter

09 · PRODUCT PORTFOLIO

Milling Section

- Roller Mill
- Square Plansifter
- Jumbo Plansifter
- Semolina Purifier
- Self-Cleaning Bran Finisher
- Vibro Bran Finisher
- Bran Finisher
- Impact Detacher
- Drum Detacher
- Insect Destroyer
- Low-Pressure Aspirator
- Pneumatic Aspirator
- Screw Feeder
- Manual Blending Machine
- Degerminator (Cerealex)

Handling & Filtering

- Tube Screw
- Screw Conveyor
- Bucket Elevator
- Airlock
- Rotary Valve (Ecluse)
- Jet Filter
- Jet Filter Bag Cleaning Machine
- Pneumatic Cyclone
- Pneumatic Valve
- Blower
- Self-Cooling Blower
- Motorized Sliding Gate
- Manual Sliding Gate
- Silo Discharger

Control, Packaging & Loading

- Vitamin Dosing Machine
- Flour Distributor
- Control Plansifter
- Turbo Plansifter
- Extraction Scale
- Carousel Packaging Machine
- Single-Weighing Packaging Machine
- Double-Weighing Packaging Machine
- Telescopic Bag Conveyor Belt
- Bag Conveyor & Loading Belt

Worldwide references

AGRIMAC has built over 180 turnkey milling solutions, with over 90% of its production driven by global exports.

AGRIMAC brings 70+ years of sectoral experience, with a processing capacity of over 300,000 tons per day.
